It is to bring to your notice that our locality has been suffering the problem of acute water shortage for last 5 months. Water supply has been extremely poor on day to day basis making our lives miserable. Quite often, water supply is so scanty that it is not sufficient for day to day use such as cooking, washing etc. Sometimes water is supplied for only for half an hour and sometimes we have to wait the whole day for water. But it is very poor dribble that we get from the tap.
